Note: The list of Yellow fever endemic countries will be regularly updated by Ministry of Health Malaysia regularly based on WHO list

### **Yellow fever vaccination requirement**

- A Yellow fever vaccination certificate is required from all visitors or delegates (Malaysians and Foreigners) coming from or going to/through Yellow fever endemic countries (As stated above in WHO list).
- Travellers or delegates without a valid Yellow fever vaccination certificate shall be quarantined upon arrival in Malaysia for a period not exceeding 6 days.
- The period of validity of an international certificate of vaccination against Yellow fever is 10 years, beginning 10 days after the date of vaccination.

- If a person is revaccinated before the end of this period, the validity is extended for a further 10 years from the date of vaccination.
- If the revaccination is recorded on a new certificate, travellers or delegates are advised to retain the old certificate for 10 days until the new certificate becomes valid.

**Reminder to Malaysian who wants to go to the endemic countries**

- Malaysians are advised to take the vaccination at least 10 days before the date of departure to endemic countries for protection against infection.
- To carry the international certificate of vaccination during travel for health check.
- To get the vaccination against Yellow fever disease at the Approved Yellow fever vaccinating Centres In Malaysia.
- To report to Entry Point Health Office on arrival in Malaysia for health check.

**Before departure:** International certificate of vaccination becomes valid 10days after the date of vaccination.

**Recommended for:** All travellers to endemic zones and wherever mandatory

**Special precautions:** Not for infants under 12months of age.
